

Team Effort

by Harth, Winter MW

The object of this puzzle is to identify a well-known quotation, the last names of its originators, and the title of the work in which it appeared. One of the originators appears in 10C and, in a way, at 15A. 17 clues each have one extraneous word. The initial letters of these words, in order, spell out the name of the other originator, and the title of the work. 18 clues are normal. Answers to nine of these must be altered before entry into the diagram, as suggested by the quotation. Enumerations are withheld. Five clue answers are capitalized.
