

## This and That

= HARTH, Winter MW

In the clues whose number is preceded by an asterisk, the definition applies to this, and the subsidiary indication applies to that, or vice-versa, in no particular order. In either case, this is ignored, and that is entered into the grid. (Enumerations refer to that.)

### Across

- \*1 Deleted an average grade, we hear. What a pain! (7)
- 7 Earned degree, degree without substance (4)
- 12 Racehorse starting to run — playful animal (7)
