

# What Am I?

by Harth, Winter MW

This is our 20<sup>th</sup> con cryptic. We feel bad that in some past puzzles, the instructions were not always spelled out. We'd like to make up for that: read the extra letters supplied by the wordplay in clues for all but eight answers, follow the directions therein, and write the answer to the title question (2 wds.) above. Bars, not symmetrically arranged, are withheld.
